Calgary, Alberta T2H1J4

Dear Roger,

I am sending this letter regarding the ADD-Vantage 9000 oil and fuel filters that your company One Eye Industries manufactures. As you know I've been running these filters on my C-15 cat engine for the past year. In the beginning I was quite skeptical about how the filters would perform. Since then, however, I am amazed with the results! Not only have I extended my drain intervals to a savings of \$100 per month, according to Caterpillar's Fluid and Analysis Lab my engine wear ratio has decreased, therefore, extending my engine life. In my opinion, you have hit a home-run with this product and I would highly recommend your product to anyone!

Thanks,

Alexander Jordan,
